

## An affordable wearable that works over cellular to keep employees safe

Worn as a pendant, watch or on a belt, the GeoPro Safety Wearable (from the maker of iHelp+ 3G™) provides fall-detection alerting and easy one-button access to:

- Check-in with safety supervisors
- Two-way SOS alerting with the ability to confirm/cancel emergencies
- Share their journey
- Two-way voice contact with our professional 24/7 emergency monitoring service

With worldwide coverage over 3G networks, this compact wearable ensures employees can get help in the event their health or safety is at risk and has been customized to work exclusively with the GeoPro safety management app. Waterproof, shatterproof and durable enough for use indoors or outdoors, the wearable also offers audible and visual (LED) indicators for SOS, fall-detection, check-in and power functions (can be disabled when discrete operation is preferred).

## FEATURES AND SPECS

### Tiny and Lightweight

6.4 x 4.6 x 1.7 cm; 42.5 g (2.5 x 1.8 x 0.67 in; 1.5 oz)

### 2-Way Voice Enabled

Voice connection to GEOS when an SOS or fall is detected (and optionally missed check-in)

### One-Button Operation

One button to check-in or declare an SOS (monitored 24/7 by GEOS)

### Water-Resistant

IPX7: up to 1 m (3.3 ft) for 30 min

### GPS Location

Location reporting within 20 m (65.6 ft)

### Rechargeable Battery

72 hours battery life, based on reporting location every 4 h

### SOS Alerting

With 24/7 monitoring service included

### Fall Detection

With three sensitivity settings and built-in cancellation timer to prevent false alarms

### Easy Check-In

With user controlled start/stop of predefined check-in schedule

### Audible Alerts (can be disabled)

For SOS, check-in, fall-detection, low battery, and cell signal status

### Protected Phone Number

Only GEOS can call your protected number

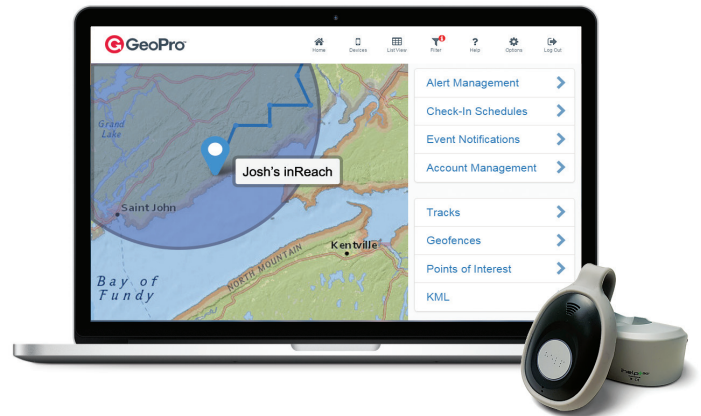

### North American Coverage

Over 3G cellular networks

**BENEFITS:** An affordable safety wearable that features a multi-function button for check-in and SOS alerting, and includes **24/7 monitoring**. Used with the GeoPro safety management app, it can be **quickly deployed at a fraction of the cost** of smartphone-based alternatives and without the associated user training or privacy concerns.

## Works seamlessly with the GeoPro Web App

Customized to work with our Cloud-based GeoPro safety management app, the GeoPro wearable's multi-function button supports core GeoPro functionality including: SOS, check-in, fall-detection, location reporting, geofencing, and event notifications. Together they offer employers a complete lone worker safety management solution that's low cost, easy to set up, and requires minimal end-user training.

## Flexible plans with unlimited usage

Monthly plans for users of the GeoPro Safety Wearable can be canceled any time or suspended seasonally, and include:

- Unlimited usage
- Cellular network access<sup>1</sup>
- GeoPro web app access
- GEOS emergency monitoring service

<sup>1</sup>3G coverage provided by AT&T in the US, Bell in Canada.

## WHAT'S IN THE BOX

- Wearable device (pendant)
- Magnetic breakaway lanyard
- Belt-clip
- Wrist-strap
- Desktop charger
- AC wall charger
- DC car charger
- Quick Start Guide
